

Sprint Review 2

- Features implemented
 - We made progress on the login of the app
 - UI for login is completed
- Issues fixed
 - We did not have specific issues last sprint, so there weren't issues to address from last time
- Implementation review (*What went well in the implementation, what problems occurred, how problems were solved*)
 - The implementation that was completed when well
 - Made less progress than expected on the coding aspect
 - Some of the member had errors occurring when the repo was cloned, and were unable to make progress because of this
 - Issues seem to be with the gradle and build, but issues were unable to be resolved
 - The plan to address this is to reach out to Max and/or Sepidah during office hours to problem solve
- Changes made
 - Login page is created
 - Use case models w/ descriptions have been created
- Plans for next sprint (*What will be done for the next sprint*)
 - Implement travel log functionality
 - Implement more log in dependencies in the database
- Scrum Review (*What went well in Scrum, what could be improved, and what changes will be made*)
 - We had consistent meetings each week, which is the change that we wanted to implement from last sprint review
