

Sprint Review 1.1

- Features implemented
 - We focused primarily on requirements and dependencies of the application
 - We set up the coding environment and have started adding functionality for travel logs, but have not completed any of said functionality
- Issues fixed
 - None
 - More issues are expected to arise with further implementation of features.
- Implementation review (*What went well in the implementation, what problems occurred, how problems were solved*)
 - The implementation that we did went well
 - More issues are expected to arise with further implementation of features.
- Changes made
 - This sprint focused primarily on research rather than direct feature implementation.
 - We added a README file and android app environment to the GitHub.
- Plans for next sprint (*What will be done for the next sprint*)
 - Finish initial implementation of travel logs
 - Start implementation of exploratory features (finding restaurants and local attractions)
 - Expand available features of travel logs
- Scrum Review (*What went well in Scrum, what could be improved, and what changes will be made*)
 - We all had clear communication with what each person will be working on and when.
 - We did not have an “official” time each week/day as to when we wanted to have a scrum meeting.
 - We will find an “official” time for the scrum meetings that fits everyone’s schedules.
