KC-1	As a new user, I want to be able to create an account, so that I can save my trip(s).				
KC-2	As a returning user, I want to be able to login to view my saved trip(s).				
KC-3	As a logged in user, I want to be able to see available flights, so that I can make the most cost and time effective trip possible.				
KC-4	As a logged in user, I want to be able to find alternative flights if the one that I was going to take gets canceled, so that I can get to my destination as quickly as I can.				
KC-5	As a logged in user, I want to be able to view hotels near my destination, so I can plan my night.				
KC-6	As a logged in user, I want to be able to view restaurants near my destination, so I can find a place to eat.				
KC-7	As a logged in user, I want to be able to view local attractions near my destination, so I can find activities to do.				
KC-8	As a logged in user, I want to be able to view reviews of places, so I can trust that I will enjoy my time.				
KC-9	As a logged in user, I want to be able to filter my search for places with criteria like price, so that I can go to places that best fit my needs.				
KC-10	As a logged in user, I want to be able to view car rentals near my destination, so that I can find a private mode of transportation.				
KC-11	As a logged in user, I want to be able to view public transport options to and near my destination, such as trains and buses, so I can find a more environmentally conscious mode of transportation.				
KC-12	As a logged in user, I want to be able to save my planned routes, so I can access them more easily.				

KC-13	As a logged in user, I want to know how long my planned routes will take, so I can plan that time into my day.				
KC-14	As a logged in user, I want to be able to pay for flights, hotels, restaurants, car rentals, etc. through this app, so that I can do everything in one place.				
KC-15	As a logged in user, I want to be able to save payment information, so I can book places, flights, etc. more quickly and easily.				
KC-16	As a logged in user, I want to have a travel log feature, so I can plan my day(s).				
KC-17	As a logged in user, I want to be able to have multiple travel logs at once, so that I can plan multiple trips in advance.				
KC-18	As a logged in user, I want to be able to store documents associated with my travel log, such as reservation info or tickets for activities I've planned, so that I can have everything I need in one place.				
KC-19	As a logged in user, I want to be able to sync with my email to be able to access documents that have been emailed to me, so that I don't have to transfer the data myself.				
KC-20	As a logged in user, I want to be able to store photos and videos in my travel log, so that I can keep and organize my experiences for myself and others.				
KC-21	As a logged in user, I want to share my travel log, so others can know my plans.				
KC-22	As a logged in user, I want to be able to add friends, so I can share my travel log.				
KC-23	As a logged in user, I want to be able to share editing access of my travel log, so that I can plan a trip involving multiple people.				
KC-24	As a logged in user, I want to be able to add/remove travel logs, so it's not cluttered.				

KC-25	As a logged in user, I want to be able to create a budget for my trip, so that I can make financially responsible decisions.				
KC-26	As a logged in user, I want to be able to enter expenses in any currency, so that I do not have to make conversions in order to enter information.				
KC-27	As a logged in user, I want to have a packing list feature, so that I can be assured that I have everything that I need.				
KC-28	As a logged in user, I want the packing list to be dynamic to match location, planned activities, and anticipated weather, so that I know that I am prepared for my trip.				
KC-29	As a logged in user, I want to be able to make other lists, such as grocery, to use during my trip, so I can keep track of what I need.				
KC-30	As a logged in user, I want to be able to access the non-exploratory features of the app, such as my travel log, stored documents, planned routes, etc, offline, so I can always access them, regardless of my wifi or data signal.				
KC-31	As a logged in user, I want to be able to export my information as a spreadsheet, so I can store and share my information independently from the app.				
KC-32	As an administrator, I want to be able to view user accounts to help with troubleshooting.				
KC-33	As an administrator, I want to be able to edit locations, so customers can have the most up to date information.				
KC-34	As an owner/stockholder, I want users' personal information to be properly secured and encrypted, so that users' information is not stolen.				
KC-35	As a guest user, I want to be able to view locations without an account, so there isn't any commitment.
